

YORK®
YHE & YEE HEAT PUMP
14 SEER 8.2 HSPF | 1.5-5.0 TONS

ALL-SEASON PERFORMANCE.
ALL-AROUND VALUE.

Year-round comfort. Utility savings month by month. Reliable performance year after year. Wherever you live. That's what these YORK® heat pump families deliver. Choose from two complete families of 14 SEER residential heat pumps designed for specific applications and to meet the rigorous demands of residential comfort conditioning.

The YEE is optimized for ECM air handler applications providing a more compact outdoor footprint. For those dual-fuel applications, you can match them with our various ECM gas furnaces to create a hybrid heating solution.

The YHE family provides select ECM and PSC indoor combinations, with the ability to provide heat down to -20°F and -29°C outdoor temperatures. Dual-fuel options are available with the various ECM and PSC residential gas furnaces.

YHE - 14 SEER	YEE - 14 SEER

QUALITY FEATURES

STANDARD FEATURES

- Extruded Louver Coil Guard – Two piece for easy access and cleaning while adding strength and durability
- Stainless Steel Filter Driers for long life
- Swing-Open Electrical Box – For easy access for annual cleanings
- Removeable fan and guard assembly – Can be removed for access without removing the entire top
- Independent removeable panels
- 45 degree service ports – For quick processing
- Automotive grade powder paint finish
- High and low pressure safety switches
- Base pans that are galvanized and powder painted

We design, engineer and assemble YORK® LX Series Split System Heat Pumps here in the United States, where we can closely monitor and improve processes that directly affect quality. It's this commitment to excellence that allows us to offer outstanding warranties, meet the highest industry standards and deliver energy-saving comfort that lasts a lifetime.

THAT'S WHY, WHEN IT COMES TO HOME COMFORT, YOUR CONFIDENCE IS OUR COMMITMENT.

LX Series Split System Heat Pumps

* 10-year compressor, 10-year parts limited warranties require online registration within 90 days of installation. Otherwise, warranties revert to the standard 5-year compressor and 5-year parts limited warranties.
